

100 Gbit/s VCSEL Multi-Mode Fiber-Coupled Module (850 nm) for high order modulation

Sample image only. Actual product may vary

Product Code: VM100-850M

Product Description

Ultrahigh-speed transmitter module for test purpose with integrated 850nm VCSEL fiber coupled to an OM3 multimode fiber for optical output. The module is designed as engineering sample for high speed test applications. Bitrates beyond 100G have been demonstrated with high order modulations: 4-PAM [1], DMT [2] and multi-CAP [3].

Multi mode and single mode VCSEL versions are available.

Features

- OM3 MMF Pigtail (50 μ m core, 1 m length)
- FC/PC optical output connector
- Anritsu V electrical connector
- Multi Mode and Single Mode VCSEL versions

Applications

- Research and development
- 100G testing (4-PAM, DMT, multi-CAP)

Parameter	VM100-850M-MM	VM100-850M-SM
VCSEL type	Multi mode	Single mode
Emission Wavelength	850 nm (available 835 – 865 nm)	850 nm (available 835 – 865 nm)
Data rate	Up to 100 Gbit/s	Up to 100 Gbit/s
Peak Output Power	4 mW	1 mW
